NEW JERSEY COMPENSATION RATING AND INSPECTION BUREAU

UNIT STATISTICAL REPORTING GUIDEBOOK

This Guidebook does not replace or revise reporting requirements set forth in the WCIO Workers Compensation Data Specifications Manual, or the Statistical Plan found in the New Jersey Workers Compensation and Employers Liability Insurance Manual. The Guidebook is intended solely as an information resource for insurers, producers and employers.

SECTION I – Introduction

This guidebook outlines the preferred reporting and correction practices for the submission of New Jersey workers' compensation unit statistical data to the New Jersey Compensation Rating and Inspection Bureau ("Bureau"). It supplements the rules set forth in the Statistical Plan, Part 3, Section 13 of the New Jersey Workers' Compensation and Employers' Liability Insurance Manual ("The Manual"), which describes the reporting requirements relating to unit statistical data. This guidebook is intended to:

- Provide details and illustrative examples of unit statistical reporting as required by the Statistical Plan;
- Encourage common and effective reporting practices;
- Inform data providers of the Bureau's processes; and
- Provide procedures relating to specific reporting requirements.

SECTION II – Purposes of USR Reporting

The Bureau is the statutorily designated statistical agent and rating organization for New Jersey workers' compensation insurance. Timely and complete unit statistical reporting is necessary for both the ratemaking process and the promulgation of experience rating data.

1. Experience Rating

The Bureau is responsible for the calculation and distribution of experience modifications for workers' compensation policies with New Jersey exposure. Unit statistical data is required to determine whether a risk qualifies for experience rating, and provides the exposure and loss experience from which the ratings are calculated. Further information about the Experience Rating Plan can be found in Part 3, Section 11 of the Manual.

2. Ratemaking

Unit statistical data is one source of information used in the preparation of the Bureau's annual rate filing and to determine class relativities for the Manual rates.

3. Coverage Verification

The Bureau makes policy and coverage data available to meet employers' proof of coverage obligations to the State. Unit statistical data is matched to the coverage data and constitutes the last report of the policy coverage period.

4. Verification of Aggregate Financial Data

Unit statistical data and aggregate financial data reported by insurers are compared to verify the accuracy of both sets of data. Despite timing and definitional differences between the submission and valuation of unit statistical and aggregate financial data, meaningful comparisons can be made between these two sources of data as a test for consistency.

SECTION III – Submission and Formatting of USR Data

In 1996, the Advisory Statistical Work Group ("ASWG"), a subcommittee of the WCIO, expanded the unit statistical report. This revised format is currently used industry wide.

The Electronic Data Interchange ("EDI") committee, also a subcommittee of the WCIO, is charged with maintaining countrywide reporting standards for workers' compensation data. The Bureau utilizes the EDI standards.

The Bureau is a member of the American Cooperative Council on Compensation Technology ("ACCCT"). As a member of ACCCT, the Bureau accepts statistical data via a software program known as the Bureau Entry and Edit Package ("BEEP"). BEEP Allows for the manual entry, import and electronic submission of statistical data.

The Bureau accepts the following data reporting media:

1. Electronic Transmission

The Bureau permits the electronic transmission of USR data which must use the WCSTAT file specifications in the WCIO Workers Compensation Data Specifications Manual.

The file Transfer Protocol ("FTP") service is available to insurers via the Compensation Data Exchange ("CDX") or the Bureau's website, www.njcrib.com. CDX is an ACCCT product which provides member insurers a secure, internet-based method for sending, receiving and managing a wide variety of transactions utilizing WCIO Standards.

2. Hard Copy

Hard copy forms (USR-ASWG-A) may be printed in-house, secured from outside vendors or the Bureau's website. Forms printed in-house or secured from outside vendors must match the approved WCIO form and be properly aligned to accommodate the data fields. The Bureau recommends that data providers move to the electronic transmission medium.

SECTION IV – WCSTAT Electronic Reporting Requirements

The minimum WCSTAT reporting requirements are set forth below. For complete reporting instructions, refer to the WCIO Workers Compensation Data Specifications Manual.

1. Record Type Descriptions

Record type code	Record Type	Description	
1	Header record	Contains information regarding the policy. This record type is required for USR reports.	
I Rick Name record I		Contains the primary name of the insured. This record type is required for USR reports.	
Risk Address record Contains the mailing address of the insured. This optional, but desired, for USR reports.		Contains the mailing address of the insured. This record type is optional, but desired, for USR reports.	
Exposure record Provides detailed exposure data. This USR first reports.		Provides detailed exposure data. This record type is required for USR first reports.	
5 Loss record Provides detailed loss subsequent reports.		Provides detailed loss data. This record type is required for USR subsequent reports.	
6	Unit Total record	Provides totals for each unit report. This record type is require for USR reports.	
9	Submission Control record	Provides the total number of records and units contained in a submission. This record is required for each submission of data.	

2. Link Data

Link data (the first forty positions of each record) is common to all records. Link data is critical when matching records for a given unit report. Complete link records are required for all WCSTAT records, excluding Record Type code 9.

3. Minimum Record Requirements per Report Type

1 st Report		
MUST CONTAIN THESE RECORDS	CANNOT CONTAIN	MAY CONTAIN
1 & only 1 Record Type Code 1 - Header		Record Type Code 3 - Address
1 & only 1 Record Type Code 2 - Risk Name		Record Type Code 5 - Loss
At least 1 Record Type Code 4 - Exposure		
1 & only 1 Record Type Code 6 – Unit Total		

Exposure Correction		
MUST CONTAIN THESE RECORDS	CANNOT CONTAIN	MAY CONTAIN
1 & only 1 Record Type Code 1 - Header	Record Type Code 5 - Loss	Record Type Code 3 - Address
1 & only 1 Record Type Code 2 - Risk Name		
At least 1 Record Type Code 4 - Exposure		
1 & only 1 Record Type Code 6 - Unit Total		

Header Correction		
MUST CONTAIN THESE RECORDS	CANNOT CONTAIN	MAY CONTAIN
1 & only 1 Record Type Code 1 - Header	Record Type Code 4 - Exposure	Record Type Code 3 - Address
1 & only 1 Record Type Code 2 - Risk Name	Record Type Code 5 - Loss

1 & only 1 Record Type Code 1 - Header	Record Type Code 4 - Exposure	Record Type Code 3 - Address
1 & only 1 Record Type Code 2 - Risk Name		
At least 1 Record Type Code 5 - Loss		
1 & only 1 Record Type Code 6 - Unit Total		

Total Correction		
MUST CONTAIN THESE RECORDS	CANNOT CONTAIN	MAY CONTAIN
1 & only 1 Record Type Code 1 - Header	Record Type Code 4 - Exposure	Record Type Code 3 - Address
1 & only 1 Record Type Code 2 - Risk Name	Record Type Code 5 - Loss	
1 & only 1 Record Type Code 6 - Unit Total		

Multiple Correction		
MUST CONTAIN THESE RECORDS	CANNOT CONTAIN	MAY CONTAIN
1 & only 1 Record Type Code 1 - Header		Record Type Code 3 - Address
1 & only 1 Record Type Code 2 - Risk Name		
At least 1 Record Type Code 4 - Exposure		
At least 1 Record Type Code 5 - Loss		
1 & only 1 Record Type Code 6 - Unit Total		

Subsequent Report		
MUST CONTAIN THESE RECORDS	CANNOT CONTAIN	MAY CONTAIN
1 & only 1 Record Type Code 1 - Header	Record Type Code 4 - Exposure	Record Type Code 3 - Address
1 & only 1 Record Type Code 2 - Risk Name		
At least 1 Record Type Code 5 - Loss		
1 & only 1 Record Type Code 6 - Unit Total		

SECTION V – Notification of Receipt of USR Data

Carriers will receive notification that USR data has been received by the Bureau. The type of notice depends on how the USR data was transmitted to the Bureau.

1. NJCRIB.com

The Bureau will notify the sender of the status of the USR data submission via the primary and alternate email addresses provided when the insurer registered for File Transfer Service through NJCRIB.com.

2. CDX

A system-generated confirmation email is sent from CDX to the file sender once the data file is received by CDX. A second confirmation email is triggered when the Bureau updates the CDX File Status. The second email confirmation notifies the carrier that the data has been rejected or accepted for processing.

SECTION VI – Processing of USR Data

Files received on a particular day are not assured of being processed that same day. Submissions are typically processed within two days. However, files received on Friday will typically be processed on Monday.

Files may be rejected in their entirety if they do not meet the minimum data quality standards.

USRs will be rejected from the submission file if they have fatal errors.

SECTION VII – Testing of USR Data

Carriers must submit test files to the Bureau in order to obtain approval. Carriers must submit test electronic submissions with duplicate hard copy unit reports for verification.

Carriers will be approved to submit production files after the submission of one successful test electronic file. A successful test is a file with no WCSTAT file pre-processing rejection errors; a limited number of other errors; and no discrepancies between the electronic transmission and the hard copy reports. Immediately after processing each file, the Bureau will contact the carrier with the test results.

1. Quantity of Data

Each test file must contain between 25 and 50 unit reports. If this is not possible, contact the Bureau for assistance.

2. Type of Data

Submit "live" production data during the test phase. If "live" production test data is not available, make prior arrangements with the Bureau for the submission of artificial data.

3. Conditions for Testing

The test file must contain one example of each of the following:

STATISTICAL CONDITIONS REQUIRED FOR TESTING

1. EXPERIENCE MODIFICATION	
2. SPLIT REPORTS	
3. STATISTICAL CODES	
0063 0064	PREMIUM DISCOUNT
0900	EXPENSE CONSTANT
0931	SHORT RATE PENALTY PREMIUM

9. INCIDENTAL PER CAPITA (0910, 0912, 0913 & 0915)	

SECTION VIII - <u>USR Data Elements Applicable in New Jersey</u>

1. Report Number

Report the one or two-digit numeric code that corresponds to the report level based on the loss valuation date.

Electronic Reporting: Report '1' through '9' and then 'A'.

Code	Valued as of the:
1	18 th month after the month in which the policy became effective
2	30 th month after the month in which the policy became effective
3	42 nd month after the month in which the policy became effective
4	54 th month after the month in which the policy became effective
5	66 th month after the month in which the policy became effective
6	78 th month after the month in which the policy became effective
7	90 th month after the month in which the policy became effective
8	102 nd month after the month in which the policy became effective
9	114 th month after the month in which the policy became effective
10	126 th month after the month in which the policy became effective

2. Correction Sequence Number

Report the two-digit sequential number that corresponds to the number of correction reports submitted within a particular report level. Exposure and loss corrections on the same report level must be numbered consecutively.

Electronic Reporting: Report '1' through '9' and then 'A' through 'Z'.

3. Correction Type

Report the one-letter code that identifies the type of correction report being submitted.

Code	Description
Н	Header
Е	Exposure
L	Loss
T	Total
M	Multiple record types

4. Replacement Report Code

Report the code that indicates that the USR is replacing a previously submitted report. Replacement reports can only be filed if the status of the unit report being replaced is "Rejected".

5. Carrier Code Number

Report the five-digit code assigned to the reporting company by the NCCI.

6. Policy Number

Report the complete alpha/numeric policy number that uniquely identifies the policy and will make it possible to locate the policy record in the company files. This number must be identical to the number set forth on the policy Information Page or as endorsed. The policy number must remain the same throughout the life of the policy and for all experience reporting.

7. Policy Effective Date

Report the month, day and year that the policy became effective. This date must be identical to the date set forth in Item 2 of the policy Information Page or as endorsed.

For interstate policies endorsed after the policy effective date to provide coverage for New Jersey, report the effective date of the policy.

For the second and third periods of three-year variable rate policies, report the effective date as one and two years, respectively, subsequent to the policy effective date set forth in Item 2 of the policy Information Page. For the first period, report the policy effective date as shown on the policy Information Page, or as endorsed. If the policy contains a Policy Period Endorsement, then the effective date must coincide with the dates indicated on the schedule of that endorsement.

For the second period of extended-term policies, report the effective date as the date that the second period began as shown in the Policy Period Endorsement.

Electronic Reporting Format: YYMMDD

8. Policy Expiration Date

Report the month, day and year upon which the policy expired.

For mid-term cancelled policies, report the cancellation date as the expiration date.

For policies issued not longer than one year and sixteen days (considered standard one-year term policies), report the expiration date as shown on the policy Information Page.

For the first and second periods of three-year variable rate policies, report the expiration date as one and two years, respectively, subsequent to the policy effective date set forth in Item 2 of the policy Information Page. For the third period, report the policy expiration date as shown on the policy Information Page, or as endorsed. If the policy contains a Policy Period Endorsement, then the expiration date must coincide with the dates indicated on the schedule of that endorsement.

For the first and second period of extended-term policies, report the associated expiration date as shown in the Policy Period Endorsement.

Electronic Reporting Format: YYMMDD

9. Exposure State

Report the two-digit state code in which coverage has been provided for the classifications and corresponding exposures, if any, and to which the payrolls of claimants have been assigned.

Code	State
29	New Jersey

10. Previous Report Number

Provide the report number code that was previously reported.

11. Previous Correction Sequence Number

Provide the correction sequence number that was previously reported.

12. Previous Carrier Code Number

Provide the carrier code that was previously reported

13. Previous Policy Number

Provide the policy number that was previously reported.

14. Previous Policy Effective Date

Provide the policy effective that was previously reported.

15. Previous Exposure State

Provide the exposure state code that was previously reported.

16. State Effective Date

Report the Endorsement Effective Date if New Jersey coverage was added, mid-term, to an interstate policy.

Electronic Reporting Format: YYMMDD

17. Policy Conditions

This data element is comprised or the following: Three Year Fixed Rate Policy, Multistate Policy, Interstate Rated Policy, Estimated Audit, Retrospective Rated Policy, Cancelled Mid-Term Policy and Managed Care Organization. Report the "Y" (Yes), "N" (No) or "U" (Uncooperative) indicator code as applicable.

A.

Three Year Fixed Rate Policy	
Code	Description
N	This is not a three-year fixed rate policy.

В.

Multistate Policy	
Code	Description
Y	This is a multistate policy.
N	This is not a multistate policy.

C.

Interstate Rated Policy	
Code	Description
N	This is not an interstate rated policy.

D.

Estimated Audit	
Code	Description
Y	This policy has an estimated exposure.
N	This policy does not have an estimated exposure.
U	Uncooperative

E.

Retrospective Rated Policy	
Code	Description
Y	This is a retrospective rated policy.
N	This is not a retrospective rated policy.

F. _____

Cancelled Mid-Term Policy	
Code	Description
Y	This policy was cancelled mid-term.
N	This policy was not cancelled mid-term.

G.

Managed Care Organization (MCO) Policy		
Code	Description	
Y	This is a managed care organization (MCO) policy.	
N	This is not a managed care organization (MCO) policy.	

18. Page Number

This is a hard copy field to be used only in risks with multiple pages.

19. Last Page Number

This is a hard copy field to be used only in risks with multiple pages.

20. Unit Format Submission Code

This is an electronic field only. Use the following code:

Code	Description
A	ASWG format

21. Insured Name

Report the name of the person or business with whom an insurance contract is made and who is specifically designated by name in Item 1 of the policy Information Page or as endorsed.

22. Insured Address

Report the street address, city, state and zip code of the insured as shown in Item 1 of the Policy Information Page or as endorsed. The address record is an optional field.

23. Modification Effective Date

Normally, this is the effective date of the policy. However, when a split period due to an anniversary rating date (ARD) change is reported, report the appropriate dates applicable to the respective exposure periods. Note that, within each exposure period, the modification and rate effective dates must be the same. Furthermore, for electronic reporting, a modification effective date is required on all exposure records.

Electronic Reporting Format: YYMMDD

24. Rate Effective Date

Normally, this is the effective date of the policy. However, when a split period due to an ARD change is reported, report the appropriate dates applicable to the respective exposure periods. Note that, within each exposure period, the modification and rate effective dates must be the same. Furthermore, for electronic reporting, a modification effective date is required on all exposure records.

Electronic Reporting Format: YYMMDD

25. Split Period Code

This is an electronic field only, used to indicate a change in the manual/charged rates or modification factors.

Code	Description
0	First exposure period
1	Second exposure period
2	Third exposure period

26. Update Type Code

This data element applies to both exposure and loss information. Report the one-letter code that identifies the activity of an exposure or loss record.

Method 1		
Previous and Revised Procedure		
Code	Description	
P	Previous	
R	Revised	

Note: Additions of exposure or loss records must be identified by update type "R" only.

Deletions of exposure or loss records must be identified by update type "P" only.

Changes of exposure or loss records must be identified by update types "P" and "R".

27. Exposure Coverage Act

Report the two-digit code indicating the Act/Law or coverage under which the exposure for this record's classification code is associated.

Code	Description
00	For Use with Statistical Codes
01	State Act or Federal Act Excluding USL&H
02	USL&H Coverage on "F" and Non "F" Classes

28. Classification Code

Report the four-digit classification code corresponding to the classification assigned to the insured according to the rules of the Manual or the statistical code, under which the basis of premium was actually audited and the insured billed.

There cannot be more than one exposure record per unit for any classification code with the same manual/charged rate, exposure coverage code, experience modification, rate effective date and modification effective date.

29. Exposure Amount

This figure constitutes the basis for determining premium on a per classification level. Exposure amount is normally on a payroll basis. Refer to the Statistical plan for classification code exceptions. Report the entire whole dollar exposure amount for each classification assigned to the policy to the nearest whole dollar amount.

30. Manual Rate

Report the rate actually charged per unit of exposure for each classification code.

31. Premium Amount

Report the premium amount corresponding to each classification. The premium amount for payroll classes is the result of multiplying the exposure by the manual/charged rate divided by 100. Report the premium amount developed by extension of payroll or other exposure amount at the authorized rate to the nearest whole dollar.

For non-exposure classifications, the premium is defined by the classification/statistical code. For other than payroll exposure classifications, the premium is the exposure amount times the manual/charged rate.

32. Experience Modification Factor

Report the factor based on the past experience of the insured that is used to modify an insured's premium. Multiple experience modification factors may apply.

If a change in the experience modification factor occurs after the policy effective date due to an ARD change, then the payrolls, authorized rates and corresponding premiums must be split.

33. Total Subject Premium

Report the sum of premium amounts subject to experience modification prior to the application of the modification factor. For exposure corrections, this must be the revised total amount.

34. Total Modified Premium

This is a hard copy field only. Report the sum of premium amounts subject to experience modification after the application of the modification factor. For exposure corrections, this must be the revised total amount.

35. Total Standard Exposure

Report the sum of all payroll exposure amounts to be included in standard exposure. For exposure corrections, this must be the revised total amount.

36. Total Standard Premium

Report the sum of all premium dollars, both subject to modification and not subject to modification, to be included in standard premium. For corrections, this must be the revised total amount.

37. Claim Number

Report the alphanumeric number that uniquely identifies the claim. The complete claim number must remain the same throughout the life of the claim. Claim number is not reported if the insurer elects the claim grouping option (discontinued for policies affective on or after 1/1/13).

38. Accident Date/Number of Claims

Report the month, day and year on which the injury occurred.

For hard copy reporting, the grouped claim count is reported in the Accident Date/Number of Claims field (discontinued for policies effective on or after 1/1/13). Claim count is not reported for individually listed claims on hard copy.

For electronic reporting, this field applies only to individually listed losses. Leave blank when reporting grouped losses (discontinued for policies effective on or after 1/1/13).

Electronic Reporting Format: YYMMDD

39. Claim Count

This is an electronic field only. Report the claim count as defined by the Statistical Plan. This field is never left blank or zero-filled. For grouped claims, report the number of claims in the grouping.

40. <u>Incurred Indemnity</u>

Report the whole dollar amount of incurred indemnity, including all paid and outstanding reserve benefits due to an employee's lost wages or inability to work including compensation paid to the deceased prior to death, burial expenses, claimant's attorney fees, vocational rehabilitation, payments to the state and employers' liability losses and expenses as of the valuation date.

Note: Allocated Loss Adjustment Expenses for other than employers' liability coverage must be excluded from incurred indemnity loss amounts.

41. Incurred Medical

Report the whole dollar amount of incurred medical, including all paid and outstanding reserve benefits as of the loss valuation date.

42. Loss Classification Code

Report the appropriate four-digit classification code where the payroll of the claimant was reported. No claims should be charged to a classification if no exposure was reported.

43. Injury Code

Report the two-digit code that identifies under which provision of the law benefits are paid or expected to be paid.

Code	Description	
01	Death	
02	Permanent Total Disability	
03	Major Permanent Partial Disability	
04	Minor Permanent Partial Disability	
05	Temporary Total Disability	
06	Non-Compensable Medical Claims – Also known as Medical Only claims	

44. Status Code

Report the one-digit code that indicates the status of the claim.

Code	Description
0	Open
1	Closed

45. Loss Conditions

This data element is comprised of the following: Loss Coverage Act, Type of Loss, Type of Recovery, Type of Claim and Type of Settlement. Report the two-digit codes that correspond to each data element.

A.

Loss Coverage Act		
Code	Description	
01	State Act or Federal Act – Excluding USL&H	
02	USL&H Coverage on "F" and Non "F" classes	

В.

Type of Lo	Type of Loss		
Code	Description	Definition	
01	Trauma	An injury resulting in disability or death traceable to a definite compensable accident occurring during the employee's employment which cannot be classified as either a Disease Loss or Cumulative Injury as defined below.	
02	Occupational Disease	Any condition resulting in disability or death not traceable to a definite accident occurring during the employee's employment. The condition is caused by exposure to a disease-producing agent(s) present in the worker's occupational environment. In order for a claim to be coded as a disease claim, it must have resulted from repetitive exposure extending over a period of time. Claims which arise from single identifiable incidents should not be coded as disease claims even though they may have been caused by inhalation, absorption, ingestion or environmental factors.	
03	Cumulative Injury other than disease	Any injury which results in a disability or death and is not traceable to a definite compensable accident occurring during the employee's employment. The injury occurs from, and is aggravated by, a repetitive-related activity.	

C.

Type of Recovery		
Code	Description	
01	No recovery	
02	Second Injury Fund Only	
03	Subrogation Only (Third Party)	
04	Subrogation with Second Injury Fund (Third Party)	

D.

Type of C	Type of Claim		
Code	Description	Definition	
01	Workers Compensation	Claim incurred under provisions of Part One of the Workers	
	(Part One) Only	Compensation & Employers Liability Insurance Policy.	
02	Employers Liability	Claim incurred under provisions of Part Two of the Workers	
	(Part Two) Only	Compensation & Employers Liability Insurance Policy.	
03	Combination of Workers	Claim incurred under provisions of both Part One and Part	
	Compensation (Part One)	Two of the Workers Compensation and Employers Liability	
	and Employers Liability	Insurance Policy.	
	(Part Two)		
04	Liability Over	Refers to a particular Employer's Liability coverage situation	
		where a third party, who is being sued by an employee, in	
		turn sues the employer. Any damages incurred by the	
		employer are classified as liability over, and are in addition to	
		compensation payments made to the injured employee.	

E.

Type of So	Type of Settlement		
Code	Description	Definition	
00	Claim not subject to settlement		
03	Stipulated Award (carrier/claimant settlement)	A settlement agreed to by the claimant and the carrier.	
04	Findings and Award (judicial award)	An award issued by a Judge of Compensation on evidence presented.	
05	Dismissal or take nothing	A claim dismissed after judicial review or the claimant fails to pursue the claim.	
06	Compromise – Section 20	A judicial settlement over the issues of applicability and extent of injury in accordance with N.J.S.A. 34:15-20.	

46. Jurisdiction State

Report the two-digit state code of the governing jurisdiction that will administer the claim and whose statutes will apply to the claim adjustment process when that state code is different from the exposure state code.

47. Catastrophe Number

Any accident resulting in a compensable injury to two or more persons shall be considered a catastrophe. In reporting catastrophes, all claims resulting from the accident shall be designated by the numeral (1). If there is more than one catastrophe under the policy, each succeeding catastrophe should be designated by means of a separate sequential number (2), (3), etc., up to and including (10). After number (10) is assigned, the next number in the sequence will reprocess to number (1). Numbers (11) through (99) are reserved for ISO assigned catastrophe codes.

48. MCO Type Code

Report the two-digit code to identify whether the claim is administered by an approved Managed Care Organization.

Code	Description
00	Claim not administered by an approved managed care organization program.
01	Claim is administered by an approved managed care organization program.

49. Injury Description Codes

This data element is comprised of the following elements: Part of Body, Nature of Injury and Cause of Injury. This data element is not required for closed grouped medical only claims (discontinued for policies effective on or after 1/1/13).

A. Part of Body

Report the two-digit code that represents the part of body for a given claim. Refer to the 'Injury Description Code Table' in the Statistical Plan for applicable codes.

B. Nature of Injury

Report the two-digit code that represents the nature of injury for a given claim. Refer to the 'Injury Description Code Table' in the Statistical Plan for applicable codes.

C. Cause of Injury

Report the two-digit code that represents the cause of injury for a given claim. Refer to the 'Injury Description Code Table' in the Statistical Plan for applicable codes.

50. Occupation Description

Report a narrative description of the regular occupation of the injured worker.

51. Paid Indemnity

Report the whole dollar amount of paid indemnity for the claim as of the loss valuation date. These losses consist of all paid benefits due to an employee's lost wages or inability to work, including compensation paid to a deceased prior to death, burial expense, claimant's attorney fees, vocational rehabilitation benefits, payments to the state and employers liability losses and expenses.

Note: ALAE for other than employers liability coverage must be excluded from indemnity losses.

52. Paid Medical

Report the whole dollar amount of medical losses paid for the claim as of the loss valuation date.

53. Claimant's Attorney Fees

Report the whole dollar amount paid plus outstanding reserves for claimant's legal representation during the settlement of the claim as of the loss valuation date.

54. Employer's Attorney Fees (Optional Data Element)

Report the whole dollar amount paid plus outstanding reserves for employer's legal representation during the settlement of the claim as of the loss valuation date.

55. Weekly Wage (Optional Data Element)

Report the actual weekly wage amount at the date of the injury upon which the indemnity benefits are based. Report whole dollars only.

56. ALAE Paid

Report the whole dollar amount of loss adjustment expense allocated and paid by an insurance company when handling a claim as of the loss valuation date.

57. ALAE Incurred (Optional data Element)

Report the whole dollar amount of loss adjustment expense allocated and paid or reserved by an insurance company when handling a claim as of the loss valuation date.

58. Total Number of Claims

Report the total number of claims within the policy. In the case of loss corrections or subsequent reports, this must be the revised total.

59. Total Incurred Indemnity

Report the total of the incurred indemnity amount within the policy. In the case of loss corrections or subsequent reports, this must be the revised total.

60. Total Incurred Medical

Report the total of the incurred medical amount within the policy. In the case of loss corrections or subsequent reports, this must be the revised total.

61. Total Paid Indemnity

Report the total of the paid indemnity amounts reported for the state within the policy. In the case of corrections and subsequent reports, this must be the revised total.

62. Total Paid Medical

Report the total of the paid medical amounts reported for the state within the policy. In the case of corrections and subsequent reports, this must be the revised total.

63. Total Claimant's Attorney Fees

Report the total of the incurred claimant's attorney fees reported for the state within the policy. In the case of corrections and subsequent reports, this must be the revised total.

64. Total Employer's Attorney Fees (Optional Data Element)

Report the total of the incurred employer's attorney fees reported for the state within the policy. In the case of corrections and subsequent reports, this must be the revised total.

65. Total ALAE Paid

Report the total of the paid ALAE reported for the state within the policy. In the case of corrections and subsequent reports, this must be the revised total.

66. Total ALAE Incurred (Optional Data Element)

Report the total of the incurred ALAE reported for the state within the policy. In the case of corrections and subsequent reports, this must be the revised total.

SECTION IX – Pre-delinquent, Due and Delinquent Data

Unit statistical data must be reported for any and all workers' compensation policies reported in New Jersey. When coverage information is sent to the Bureau and a policy record created, a unit report must follow at a later date based on the valuation dates for report levels set for the policy effective date. During the period of time from policy issuance until the first valuation of losses, the first report USR is termed "pre-delinquent."

The premium and losses of each policy are first valued as of eighteen (18) months after the policy effective date, and must be reported no later than twenty (20) months after the policy effective date.

Unit statistical reports are termed "due" from the first possible day of valuation until the data is overdue. First reports are due beginning on the first day of the 18th month through the fifteenth day of the 20th month from the policy effective date.

First reports not submitted by the fifteenth day of the 20th month are "delinquent" and subject to financial penalties.

Subsequent report valuations are at 30, 42, 54, 66, 78, 90, 102, 114 and 126 months, respectively, after the policy effective date. The subsequent reports must be submitted no later than the fifteenth day of the 32, 44, 56, 68, 80, 92, 104, 116, and 128 months, respectively, after the policy effective month.

Subsequent reports are required when:

- 1. The previous report contained open claims;
- 2. One or more claims are reopened;
- 3. Previously unreported claims have become known; or
- 4. There are changes in the loss valuation of one or more claims.

Subsequent reports are "pre-delinquent" from the prior report with open claims until the valuation for the subsequent report.

Subsequent reports are "due" from the first possible day of valuation until the day the data is overdue.

Subsequent reports are "delinquent" if not received by the Bureau by the due date, and become subject to financial penalties.

SECTION X – <u>Pre-delinquent and Delinquent listings – WCCNTL</u>

Pre-delinquent and delinquent listings are distributed to carriers via regular mail or electronically via Workers Compensation Control Listings ("WCCNTL"). The hard copy pre-delinquent list is mailed on the first work day of each month, and the delinquent list no later than the nineteenth day.

Data providers may also obtain this data electronically via WCCNTL (the WCIO standard electronic reporting format for pre-delinquent and delinquent listings). In order to receive and return this data electronically carriers must contact the Bureau. Bureau contact information can be found in Section XVIII of this guidebook.

The insurer response fields found in the paper and electronic listings are "advisory notices" only, and are not substitutes for required notices of cancellation, reinstatements, policy submissions or endorsements. Missing policy data must be filed with the Bureau in the appropriate manner prior to the submission of the unit statistical reports.

SECTION XI – Monetary Sanctions

In accordance with section 3:13 of the Manual, all members of the Bureau must report the required unit statistical data in a timely, accurate and complete manner.

1. USR Time Line Schedule

Policy Effective	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec
	:	:	:	:	:	:	:	:	:	:	:	÷
Pre-delinquent List	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec	Jan	Feb
(14 months)	:	:	:	:	:	:	:	:	:	:	:	:
Claims to be Valued	Jul	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun
(18 months)*	:	:	:	:	:	:	:	:	:	:	:	:
Reports to be Filed	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug
(19 ½ months)*	:	:	:	:	:	:	:	:	:	:	:	:
Delinquent List	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept
(20 ½ months)	:	:	:	:	:	:	:	:	•	•	:	:
Subject to Fines (21 ½ months)	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct

^{*}For additional details, see Section 3:13-7 in the Statistical Plan.

2. Delinquent USRs

Any Carrier or Carrier group with fifty (50) or more delinquent reports in one month will be assessed a monetary sanction of \$50.00 per report per delinquent month or any part thereof until the required unit statistical reports are filed and accepted by the Bureau.

3. USRs with Data Quality Issues

Any Carrier or Carrier group with more than one hundred unit statistical reports in error (edit status severity code 2, 3 & 4) and an error rate of 10% and higher of USRs filed in one month, is subject to a monetary sanction of \$25.00 for each error-filled USR.

SECTION XII – Editing of USRs by NJCRIB

When Carriers use BEEP to enter USR data, some of the data is edited and validated prior to submission to the Bureau. When the unit statistical data is processed in the Bureau's system, that data is then validated by another extensive and comprehensive edit process.

1. Edit Status and Severity

The status of a USR is determined by the severity of the edits appearing on that particular USR.

Status	Severity
Accepted With Warnings (AWW)	1
Rejected	2
Accepted With Errors (AWE)	3
Critical Errors	4

- Accepted With Warnings are those USRs which contain questionable errors. Carriers will have to review these USRs and verify that whatever was reported is correct and submit either written notifications to that effect or correction reports.
- **Rejected** are those USRs with fatal errors which cannot be processed by the Bureau. In order to resolve these errors carriers will have to submit replacement USRs, correction reports or file the necessary Policy data (policy, endorsements, cancellation and reinstatement notices), so that USRs can be processed and entered in the Bureau's database.
- <u>Accepted With Errors</u> are those USRs that contain non-fatal errors, which require correction reports or supporting documentation (policy data) to be filed with the Bureau.
- <u>Critical Errors</u> are fatal errors that require immediate attention from the Carrier and/or the Bureau.

2. Error Reports

Daily and monthly follow-up error reports are sent via regular mail to the unit statistical contact for the carrier.

3. Criticism Letters

Criticism letters are sent via regular mail to the unit statistical contact for the carrier.

4. Edit Error Message List

Severity Status Code.

Identifies the severity of the edits appearing on a USR, for additional information please refer to "Edit Status and Severity" in Section XII .

Preliminary Error.

The edits flagged by the 'Y' (Yes) code identify the edits that are used to evaluate Data Quality of submissions. The system rejects any submission that has or exceeds 20 % (threshold) of these errors.

Auto Load Reject Error.

Submissions that include any USR with edits flagged with the 'Y' (Yes) code will be automatically rejected by the system.

Auto Fail/Reject Error.

If a USR contains any of the edits flagged with 'Y' (Yes) code, the system will automatically flag the USR for rejection.

SECTION XIII - Correction of Data

Correction reports shall be filed whenever there is an error of any kind on a report previously filed, whether the error is discovered by the carrier or the Bureau.

1. When to Correct Data

Revisions to first reports are required:

- Upon the identification of errors in the previously reported header, exposure or loss information by either the Bureau or carrier; or
- Upon receipt of a final audit, re-audit or any other adjustment affecting code numbers, payrolls or premiums.

Revisions of losses between valuations are permitted <u>only</u> when:

- There are errors in the previously reported information;
- Loss values are included or excluded through mistake other than error of judgment;
- The claimant obtained a recovery in an action against a third party, provided the reported net loss is less than the total incurred loss previously used in the rating;
- A claim has been officially dismissed by judicial or appropriate departmental ruling as noncompensable or for lack of prosecution where the statute of limitations has expired;
- A settlement has been approved in accordance with N.J.S.A. 34:15-20 of the New Jersey Worker's Compensation Law where the issue involves a question of jurisdiction, disability, casual relationship or dependency of the petitioner;
- A claim valued on a life pension basis is settled on a basis other than a life pension; or
- A claim should have been reported with Catastrophe Code Number 48 or 87.

Loss corrections must be submitted to the latest report level only.

2. Correction Reports

To correct a unit statistical report, use the report number of that which you are correcting and submit '01' in the correction sequence number. If previous corrections were submitted, use the next correction number in the sequence. Correction reports must contain update type codes. The revised reports can be submitted using the method outlined in subsection 3 below.

3. Update Type Method

Method 1 − P & R (Previous and Revised Procedure)								
Update Type Code								
P	Previous							
R	Revised							

4. Correction Types

Code	Description
Н	Header Record Correction
Е	Exposure Record Correction (first reports only)
L	Loss Record Correction
M	Corrections to multiple USR parts (header, exposure, loss)
T	Total Record Correction

5. Preparation of USR Corrections

A. Header Corrections

For header corrections, use correction type 'H'.

Notes: Header corrections cannot be used to backout USRs previously filed.

Header corrections cannot be used to correct "correction sequence numbers".

Header corrections do not update the Policy.

- On changes involving key-data elements (e.g., Carrier code number, Policy number or Policy effective date), report <u>all revised key-data</u> in the link data and <u>all previous key-data</u> in record type code 1 or below the horizontal lines provided in the associated hard copy elements.
- For changes involving non key-data elements (Expiration date, Policy conditions, etc.,) report all key-data in the link data along with all the revised non key-data elements.

Hard copy USR	Electronic USR
Report all revised key-data in the link data	Report <u>all revised key-data</u> in the link data and <u>all</u>
above, and the previous key-data below the	previous key-data in record type code 1.
horizontal lines provided in the associated hard	
copy elements.	

B. Exposure Corrections

For exposure corrections, use correction type 'E'. An exposure correction requires update type codes.

Method 1 – (Previous and Revised Procedure)

P/R

Revised reports shall show the items which were previously reported and the corresponding revised items.

Additions – To add a new exposure, all applicable data elements are to be reported along with an 'R' in the update type field.

Deletions – To eliminate existing exposure information, all applicable data elements are to be reported along with a 'P' in the update type field.

OR

Deletions – To eliminate existing exposure information, the following key data elements must be reported along with a 'P' in the update type field:

• Existing exposure. - Class code & Exposure coverage (Act) code.

Changes – To change an existing exposure, both 'P' and 'R' update type elements along with their appropriate data elements must be reported.

Experience Modification – If the revision involves a change in the experience modification, report all of the data for each manual class code affected by the modification change including the manual subject, modified and standard premium total amounts.

Split exposure periods – Where split exposure periods are involved and data for a class code number in one of the periods is changing, the unchanged data in the other period, for that particular code number, must also be reported.

Totals – The revised risk totals are required.

C. <u>Loss Corrections</u>

For loss corrections, use correction type 'L'. A loss correction requires update type codes.

Method 1 – (Previous and Revised Procedure) P/R

Revised reports shall show the items which were previously reported and the corresponding revised

items.

Additions – To add a new individual claim or grouped medical losses, all applicable data elements are to be reported along with an 'R' in the update type field.

Deletions – To eliminate existing loss information, all applicable data elements are to be reported along with a 'P' in the update type field.

OR

Deletions – To eliminate existing loss information, the following key data elements must be reported along with a 'P' in the update type field:

- Individual claim. Claim number and Accident date.
- **Grouped Medical losses.** Class code, Injury type and Loss conditions (Act) (discontinued for policies effective on or after 1/1/13).

Changes – To change an existing individual claim or grouped medical losses, both 'P' and 'R' update type elements along with their appropriate data elements must be reported.

Totals – The revised risk totals are required.

D. Multiple Corrections

For multiple corrections, use correction type 'M'. This correction type should be used whenever multiple areas of the USR (header, exposure, and loss) require correction. This type of correction is normally used for first reports.

When necessary to correct exposure and loss information and the Bureau already has a subsequent report (report level 2-10), separate exposure and loss corrections must be filed.

E. Total Correction

For total corrections, use correction type 'T'. The Bureau's system calculates the exposure, premium and loss totals. If the calculated totals are different from the reported totals, either some detail exposure or loss record is missing or incorrect, or the reported totals do not follow the total definitions found in the Statistical Plan.

If the detail information is incorrect or missing, exposure or loss corrections are needed.

If the totals are incorrect, a totals correction must be submitted.

6. Replacement Reports

Replacement reports can only be filed if the status of the unit report being replaced is "Rejected". Report an "R" in the Replacement Report Code field to identify the new report as a replacement report being submitted in response to a unit report that as been rejected.

SECTION XIV – Other Reporting Issues

1. Cancelled Flat Policies

Policies which have been cancelled flat (<u>i.e.</u>, the cancellation date is the same as the policy inception date) do not require the submission of unit statistical data. Unit statistical reports are required for policies that have been cancelled mid-term. In those cases, the USR should be reported with an effective date the same as that of the policy and an expiration date the same as the cancellation effective date.

2. <u>Extended Term Policies</u>

Three-year annual policies or policies extending beyond one year and sixteen days are considered separate policies for unit statistical reporting purposes. The unit reports for each segment of twelve months or less shall be filed at the same time all other reports on policies with the same effective date. The USR policy periods must be consistent with the policy periods established by the policy period endorsement (WC000405).

3. Split Exposure Policies

An exposure split occurs when the exposure for the policy must be split into multiple, usually two, periods. The reason for an exposure split is a change in the ARD. Because the rates and experience modification are functions of the ARD, a split exposure requires two sets of rates and experience modifications.

4. Subrogation

In New Jersey, subrogation for workers compensation purposes is defined as a recovery action in which losses incurred by a carrier due to the injury of an employee are reimbursed either in part or in whole by a third party deemed primarily responsible for the injury.

Subrogation corrections must be filed when a carrier has obtained a subrogation recovery in an action against a third party.

When a subrogation recovery is received by the data provider subsequent to the first reporting of the claim, a correction report must be filed with the Bureau reducing the incurred loss on the claim by the amount of the subrogation recovery received.

A correction report must be filed to the latest report level to reflect the change in loss due to the subrogation recovery.

The valid Loss Condition – Type of recovery codes for identifying subrogation corrections are **03** [Subrogation Only (Third Party) – the data provider has received reimbursements from an entity other than the employer with legal liability due to circumstances for the injury] and **04** [Subrogation with Second Injury – the data provider received reimbursement from both the Second Injury Fund and a third party].

The net liability of the loss is determined by deducting from the incurred cost prior to recovery the amount recovered through subrogation less any expenses incurred in connection with such recovery.

If the expenses incurred in connection with such recovery exceed the amount recovered, the net amount of losses reported shall not exceed the gross amount of loss prior to recovery.

The net liability incurred shall be apportioned to indemnity and medical in the same proportion as the gross incurred cost. See the illustration below:

SAMPLE SUBROGATION CALCULATION

	Total	Indemnity	% of Total	Medical	% of Total
Gross Incurred Costs *	\$ 15,140	\$ 12,613	83%	\$ 2,527	17%
Subrogation Received					
Recovery Amount	\$ 3,785				
Future Credit**	\$ 9,625				
Gross Recovery	\$ 13,410				
Claim Expense	\$ 295				
Net Recovery	\$ 13,115				
Net Cost ***	\$ 2,025	\$ 1,681		\$ 344	

- * Value of the claim had there been no recovery.
- ** Future credits are the credits against outstanding payments that otherwise would have been made if there were no subrogation recovery. This credit cannot exceed the amount of outstanding payments.
- *** The allocation of the net cost between indemnity and medical is to be shown on the USR correction.

Notes (applicable only to policies effective prior to 1/1/13):

- 1. If the entire cost of a claim is recovered prior to the submission of the first report, do not report the loss.
- 2. If the entire cost of a claim is recovered after the first reporting of the claim, then the claim needs to be deleted from the USR ("P" record only). Do not revise the loss to "0" indemnity and "0" medical.

6. Exclusive Per Capita Policies

Policies which develop private residence or estates per capita experience exclusively (whether one or three years) shall be reported by a special call on forms provided for that purpose. Normally, this type of workers' compensation policy is written in the absence of a homeowners' policy.

7. Canceled Flat Policy List

Each bulk submission of experience reports shall be accompanied by a list of "Canceled Flat Policies" for that month.

8. Transmittal Procedure

Unit statistical reports submitted via hardcopy must be accompanied by a transmittal letter (Form S-31 NJ) signed by an officer of the company. All items on the letter of transmittal must be completed.

Unit statistical reports submitted via magnetic tape must be accompanied by a transmittal letter (Form S-30 NJ) signed by an officer of the company. All items on the letter of transmittal must be completed.

Unit statistical reports submitted electronically must include the required "Universal Electronic Transmittal". For additional information and requirements please refer to the <u>General</u> section of the <u>WCIO Workers Compensation Data Specifications Manual</u>. All the fields applicable to New Jersey must be completed.

9. Short Rate Penalty Premium

The short rate penalty premium shall be calculated pursuant to Rule 3:3-80 of the Manual.

10. Claim Reporting Procedures

For policies effective 2013 and prior:

• If a claim is determined to be non-compensable (zero incurred indemnity and zero incurred medical) **prior to submitting the 1**st **report**, the claim is not to be reported.

Subsequently:

- If a claim is determined to be non-compensable (zero incurred indemnity and zero incurred medical), the claim must be <u>dismissed</u> and reported on the latest report level (correction or subsequent report) with a P record.
- If a claim is <u>partially dismissed</u>, the claim must be reported on the latest report level (correction or subsequent report) with P and R records showing the lower incurred indemnity and/or incurred medical amount(s). These claims must be coded with loss conditions settlement code 05.

For policies effective 2014 and after:

- If a claim is determined to be non-compensable (zero incurred indemnity, zero incurred medical, zero paid indemnity, zero paid medical, zero claimant's attorney fees, zero employer's attorney fees, zero ALAE paid and zero ALAE incurred) **prior to submitting the 1**st **report,** the claim is not to be reported.
- If a claim is determined to be non-compensable (zero incurred indemnity, zero incurred medical, zero paid indemnity, zero paid medical, zero claimant's attorney fees) but one of the following fields shows a dollar amount greater than zero (employer's attorney fees, ALAE paid or ALAE incurred) **prior to submitting the 1**st **report,** the claim must be reported and coded with injury code 06 and loss conditions settlement code 05. The loss must be included in the USR 'Total Number of Claims'.

Subsequently:

- If a claim is determined to be non-compensable (zero incurred indemnity, zero incurred medical, zero paid indemnity, zero paid medical, zero claimant's attorney fees, zero employer's attorney fees, zero ALAE paid and zero ALAE incurred), the claim must be <u>dismissed</u> and reported on the latest report level (correction or subsequent report) with a P record.
- If a claim is determined to be non-compensable (zero incurred indemnity, zero incurred medical, zero paid indemnity, zero paid medical, zero claimant's attorney fees) but one of the following fields shows a dollar amount greater than zero (employer's attorney fees, ALAE paid and ALAE incurred), the claim must be reported with P and R records and coded with injury code 06 and loss conditions settlement code 05. The loss must be included in the USR 'Total Number of Claims'.
- If a claim is <u>partially dismissed</u>, the claim must be reported on the latest report level (correction or subsequent report) with P and R records showing the lower incurred indemnity and/or incurred medical amount(s). These claims must be coded with loss conditions settlement code 05.

SECTION XV – Miscellaneous

1. Increased EL Limits

To assist data providers, the following table reflects the most frequently used increased limits factors for employers' liability insurance. Note that this is not an all-inclusive table.

INCREASED LIMITS TABLE MOST FREQUENTLY USED FACTORS

BY	POLICY BY		MINIMUM	FACTOR	MINIMUM	FACTOR		
ACCIDENT	LIMIT	EMPLOYEE	CHARGES (\$)	%	CHARGES (\$)	%		
			Policies effective	ve prior to	Policies effective	January 1,		
			January 1,	, 2013	2013 and	after

	9848						

Note: **Class codes may exclude USL & H coverage [See Rule 2:1-4(b) of the Manual]. These two codes may have "exposure coverage Act" code 01.

3. Summary of Special Statistical Plan Codes

The notation in parentheses following each code number refers to the Rule in the Manual governing the use of the code number.

- **0063** Schedule Y Premium Discount (3:13-30)
- **0064** Schedule X Premium Discount (3:13-30)
- **0900** Expense Constant All classifications (3:13-34)
- **0931** Short Rate Penalty Premium (3:13-33)
- **0935** Second Injury Fund Surcharge (3:13-34A)
- **0936** Uninsured Employers Fund Surcharge (3:13-34A)
- **0937** New Jersey Workers Compensation Insurance Plan Surcharge for employers rejecting voluntary coverage (3:14-7g) Applicable only to policies effective prior to July 1, 2013
- **0942** Premium Resulting from the application of the Plan Premium Adjustment Program [3:14-8(13)]
- **0945** Retrospective Rating Premium for Risks Electing New Jersey Retrospective Rating (3:12)
- **0990** Additional Premium to equal policy Minimum Premium (3:13-29a)
- **0998** For reporting premium resulting from flat increase for law amendment on aggregate premium earned on outstanding policies after effective date of amendment (3:13-32)
- **6198** Additional Premium for Increased Limits under Part Two Coverage Admiralty/FELA (3:13-31b)
- **6199** Additional Premium for Increased Limits under Part Two Coverage Other than Admiralty/FELA (3:13-31a)
- 9046 Premium Credit amount resulting from the application of the New Jersey Construction Classification Premium Adjustment Program (3:13-34G)
- **9663** Premium credit amount for Large Deductible Coverage (3:13-34E) which is to be applied after experience modification
- **9740** Premium for Terrorism (3:13-34H)
- 9741 Premium for Catastrophe (Other than Certified Acts of Terrorism) (3:13-34I)
- 9848 Additional Premium to equal increased limits Part Two minimum charge Other than Admiralty/FELA (3:13-31a)
- **9849** Additional Premium to equal minimum premium for Admiralty/FELA Coverage (3:13-29b)
- **9874** Premium reduction resulting from the application of an Approved Managed Care Program (3:13-34F)
- 9887 Premium credit resulting from the application of the Schedule Rating Plan (3:13-34J)
- 9889 Premium debit resulting from the application of the Schedule Rating Plan (3:13-34K)

<u>Note</u>: Information on how to calculate premiums on minimum premium and other than minimum premium policies can be found in Part Three, Section 2, Pages 12(a) and (b) of the Manual.

4. How to Report Statistical & Incidental Per Capita Codes on USRs

All blank lines <u>above line A</u> of the exposure/premium side of the hardcopy USR report shall be used for reporting premium items subject to experience modification. These items include all New Jersey business classifications and the following New Jersey statistical code numbers:

Above the Modification

Lines <u>D</u>, <u>E</u>, & <u>F</u> shall be used for reporting items not subject to experience modification, but which are included (added or subtracted) in the "Total Standard Premium."

Below the Modification

Lines <u>J, K, & L</u> shall be used for reporting items not subject to experience modification, which are not included in the "Total Standard Premium."

Below Total Standard Premium (Also known as Non-Standard codes)

<u>Note</u>: For electronic submissions (WCSTAT), use the references of <u>Above the Modification</u>, Below the Modification and Below Total Standard Premium.

5. State Code List

State	Abbreviation	Code

ILLUSTRATION 3 – A Non-Rated, Minimum Premium 1st Report which requires a split period due to an Anniversary Rating Date (ARD) change per Rule 3:1-2 of the Manual. Note that the rates to be used are those in effect on the "Rate Effective Date" of each exposure period. Note that the EL limits factor (1.10%) and minimum charge (\$100) is determined by the policy effective date not the ARD date. Note that the applicable Surcharges are determined by applying the factors in effect on the policy effective date to the Total Modified Premium of the entire report. Note that the increased limits charge (\$100) reported under code 6199 and 9848 is not recognized for determining the minimum premium amount for code 0990.

ILLUSTRATION 4 – An Experience Rated 1st Report which requires a split period due to an Anniversary Rating Date (ARD) change per Rule 3:1-2 of the Manual. Note that the Rates, Mods and premium credits resulting from the Plan Premium Adjustment Program (0942) and the New Jersey Construction Classification Premium Adjustment (9046) are determined by the factors and values in effect on the associated "Mod Effective Date" and "Rate Effective Date". Note that the applicable Surcharges and Approved Managed Care Premium Credit are determined by applying the factors in effect on the policy effective date to the Total Modified Premium of the entire report. Exposure information also includes the application of Per Capita premium. Note that the Injury Description Code fields for Part/Nature/Cause were left blank because the policy effective date precedes 01/01/06, when Part/Nature/Cause data was not required. Note that Policy Conditions, Occupation Description, Paid Indemnity, Paid Medical, Claimant's Attorney Fees, Employer's Attorney Fees, Weekly Wage, ALAE Paid, ALAE Incurred, Total Paid Indemnity, Total Paid Medical, Total Claimant's Attorney Fees, Total Employer's Fees, Total ALAE Paid and Total ALAE Incurred fields were left blank because the policy effective date precedes 01/01/14 when the data was not required or optional. Note that Total Incurred Indemnity (\$606,439) is incorrect. See Illustration #8 for correction.

ILLUSTRATION 7 – An Exposure information correction ("E" Corr. Type) changing the Exposure Coverage from USL&H designation (02) to State (01) for class code 3632 on Illustration #4. Note the correction requires a split report to be identified with the appropriate "Mod Effective Date" and "Rate Effective Date". Note that where split exposure periods are involved and data for a class code number in one of the periods is changing, the unchanged data in the other period for that particular code number must also be reported.

ILLUSTRATION 9 – A correction changing multiple sections ("M" Corr. Type) of a report at one time. In this case, both the exposure and loss information sections change by developing exposure for class code 7219 and adding claim 111221 to Illustration #2. Note that the Second Injury Fund (0935) Surcharge, the Premium for Terrorism (9740) and the Premium for Catastrophe (9741) have developed due to generating Total Modified Premium and Total Standard Exposure on this previous "No Exposure Risk".

ILLUSTRATION 10 – 1st Report, Large Risk – Large Deductible. Note that the deductible credit amount is reported via statistical code 9663 in accordance with Section 3:10A of the Manual. This credit is based on the risk's election of a Large Risk – Large Deductible Program. The reported losses are gross amounts prior to deductible considerations.

ILLUSTRATION 11 – First Report. A risk including claims administered by an Approved Managed Care Organization (MCO) in accordance with Section 3:10B of the Manual. Note that only part of the risk's claims is administered by an MCO due to geographical reasons. Therefore, the premium reduction (5%) reported under class code 9874 apply to the premiums for that part of the risk (code 7219) administered by the MCO. Note that the applicable Foreign and Domestic Terrorism premium charges are determined by applying the factors to the Total Standard Exposure. Note that Part/Nature/Cause must be reported for all claims.

ILLUSTRATION 16 – A Subsequent (2nd) Report to Illustration #11 changing claim # 11111 as a result of a "Partial Dismissal" and claim #22222 as a result of a "Compromise Settlement – N.J.S.A. 34:15-20". Note that the revised loss totals reflect the inclusion of the data from the closed claim (#33333) previously reported on the First Report.

ILLUSTRATION 19 – Short Rate Penalty Premium Calculation in accordance with Rule 3:3-80 of the Manual. The Policy was issued effective 01/01/10 to 01/01/11 and cancelled on 06/30/10.

(a) Determine the payroll expended during the period the policy was in force.

Class Code	Audited Payroll	Rate	Manual Premium
9015	\$10,000	5.81	\$581
		Mod.	.961
	Modified Premium	\rightarrow	558

(b) Extend the payroll in (a) pro rata by the application of a factor determined by dividing the number of days for which the policy was written by the number of days the policy was in force.

365 (term of policy) / 180 (days in force) =
$$2.02777$$
 (factor)

(c) Determine the extended premium by applying manual rates to the payrolls in (b) divided by 100 and applying any applicable experience modification.

$$[(\$20,278 \times \$5.81) / 100) \times .961 \text{ (Mod)}] = \$1,132 \text{ (extended modified premium)}$$

(d) Calculate the extended number of days from which to determine the short rate percentage by dividing the number of days the policy was in force by the number of days for which the policy was written and multiplying the result by 365 days.

$$180 / 365 = .493 \times 365 = 179.945 \text{ (days)}$$

(e) The short rate premium is calculated by applying the short rate percentage corresponding to the extended number of days in (d) to the premium in (c). The short rate percentages are set forth in the table in Section 2:4 of the Manual.

$$179.945 = 60\%$$
 (short rate percentage)

$$1.132 \times 60\% = 679$$
 (short rate premium)

$$$679 - $558 = $121$$
 (short rate penalty)

(f) The final premium is determined by adding the expense constant to the short rate premium in (e). If the final premium so computed is less than the specified minimum premium, the minimum premium shall be charged.

Not applicable in this example

ILLUSTRATION 20 – A First report for a multistate policy including claims administered by an Approved Managed Care Organization (MCO). This information is indicated in the appropriate policy condition fields and supported by policy data and carrier information filed with the Bureau. This USR also includes an ALAE only claim. Note that some loss fields were left blank because they were either optional data elements (Employer's Attorney Fees, Weekly Wage, ALAE Incurred, Total Employer's Attorney Fees and Total ALAE Incurred) or the claims did not have data for those fields at valuation date.

ILLUSTRATION 21 – A Subsequent (2nd) Report to Illustration 20. Changing claim #12345001 as a result of the claim being re-opened, as well as indicating the developed (changed) loss values for claims #12346002 and #12348099. This USR also shows that claim #12347005 was dismissed and that claim #12349100 became an ALAE only claim, because both were determined to be noncompensable claims.

SECTION XVIII – Glossary

ACCCT

American Cooperative Council on Compensation Technology.

Add/Change/ Delete ("A", "C", "D")

Update types which identify how the Bureau is to process the correction or subsequent report.

Address Record

Insured Mailing Address.

ALAE

Allocated Loss Adjustment Expense.

Anniversary Rating Date ("ARD")

The ARD is the normal renewal date of the policy. If the policy effective date changes, the Bureau establishes the ARD. The ARD determines the rates and experience mod(s) that will apply to a policy.

ASWG

Advisory Statistical Work Group. The ASWG is a subcommittee of the WCIO that reviews and recommends data elements and codes for statistical reporting.

BEEP

Bureau Entry and Edit Package. Software, developed by ACCCT, used for entry, pre-edit and submission of USR data.

Carrier Code

This is the five-digit number assigned by the (NCCI) to identify the individual carrier.

CDX

Compensation Data Exchange. Developed by ACCCT, CDX is a web-based application which provides secure transfer of information between the carriers and DCOs.

Death Claim

A claim filed by the survivors or dependents of a worker who dies from a job-related incident. Death claims are identified by type of injury code '01'.

EDI

Electronic Data Interchange.

Electronic Reporting

Any method of reporting information that is not paper-based, and can be processed into the DCO's database without a key entry process.

Employers Liability

Coverage for the legal obligation of an employer to pay damages that are not included in statutory workers' compensation coverage.

ETR

Electronic Transmittal Record. Includes identifying information about an electronic data submission.

Expense Constant

A premium charge which applies to every policy. The expense constant covers expenses such as those for issuing, recording and auditing, which are common to all workers' compensation policies regardless of premium size.

Experience

Refers to the payroll and loss data for an employer or classification.

Experience Modification

A factor that increases or decreases an employer's total subject (manual) premium based on the employer's payroll and loss history.

Experience Rating

A Bureau experience modification calculation which uses up to 3 years and 6 months of insured loss and payroll experience submitted via unit statistical reports.

Experience Rating Worksheet

A form that shows the exposures and loss data used in the development of the experience modification.

Exposure

The basis on which premium is determined, usually represented by payroll. Other exposure basis include number of employees (per capita).

Exposure Coverage Act Code

Code which distinguishes between State and Federal coverage.

Exposure Record

Is comprised of a specific class, act, exposure, rate and premium.

F Class

Federal Classifications – The classifications of work performed at or near harbors that is included in the federal United States Longshoremen and Harbor Workers Compensation Act ("USL&H").

First Report

The first unit statistical report of a policy that includes exposures, premiums and losses valued as of the 18th month after the policy effective date.

ICR (Individual Case Report)

A statistical report that provides more detailed claim information in addition to the usual loss record.

Incurred (indemnity or medical)

Includes both paid-to-date amounts and reserves for future payments.

Jurisdiction State

The state that will administer the claim and whose statute will apply to the claim adjustment process.

Link Data

Link Data is the set of header elements that uniquely identifies the records as belonging to a specific unit statistical report.

Loss

Generally refers to the amount paid or expected to be paid for medical and indemnity benefits on a claim.

Managed Care Organization (MCO)

A state-approved organization that will administer the medical care aspects of a claim.

Mod. Effective Date

The date on which the modification is effective and applicable to the portion of the unit report.

Modified Premium

The Total Subject (Manual) Premium multiplied by the experience modification factor.

NCCI

National Council on Compensation Insurance.

NJCRIB

New Jersey Compensation Rating and Inspection Bureau.

Permanent Total Claim

A claim filed by a worker with permanent total disability due to an injury from a job-related incident.

Policy Identification/Match Data

Data fields used to match a unit statistical report to a policy, including carrier number, policy number and policy effective date.

Pre-delinquent Data

USR data that is expected to be reported at some point in the future due to the existence of coverage.

Premium

The amount paid for an insurance policy.

Previous and Revised ("P" & "R")

Refers to the pair of update types commonly used for corrections or subsequent unit statistical reports.

Rate Effective Date

The date that the rates are effective and apply to the portion of the unit report.

Record

A collection of related data fields grouped into a fixed length format for the electronic reporting of data. A unit statistical report requires several record types.

Record Type Code

The code that identifies the information and format of the record in an electronic file.

Report

May refer to Report Level or Unit Statistical Report.

Split (Exposure Split)

An exposure split occurs when the exposure for the policy must be split into two periods due to an ARD.

Subrogation

The legal process by which an insurance company, after paying a loss, seeks to recover all or a portion of the loss from another party legally liable for that loss.

Subsequent Reports

The annual revaluation of previously reported open claims, and the filing of late claims on subsequent reports (report levels 2-10).

TPA

A third-party administrator is an organization contracted by an insurance company to perform specified duties such as policy issuance or statistical reporting.

Unmatched USR

A USR that does not match a policy in the Bureau's system.

USR (Unit Statistical Report)

A USR is the report used to report detailed header, exposure, premium and loss information for a specific workers' compensation policy. Reports may be filed electronically or via hard copy.

USR Correction Reports

Unit statistical reports that are filed to amend previously reported data, due to inaccuracies or errors.

Valuation Date

The month and year that the losses are evaluated for unit statistical reporting purposes.

WCCNTL (Workers' Compensation Control Listings)

The WCIO standard electronic reporting format for pre-delinquent and delinquent USR listings.

WCIO

The WCIO (Workers' Compensation Insurance Organizations) is a voluntary association of statutorily authorized or licensed rating, advisory, or data service organizations that collect workers' compensation insurance information in one or more states. The WCIO is composed of the managers of the various boards and jurisdictions and several insurance carriers.

The purpose of the WCIO is to provide a forum for the exchange of information about workers' compensation insurance. The WCIO publishes and maintains the WCIO Data Specifications Manual.

WCSTAT

The unit statistical record format approved and published by the WCIO for the reporting of workers' compensation unit statistical reports.
